

## Scorers Instructions

1. Each competitor leaves their targets, scorecard, & relay card with the Target Manager at the table under the shed; direct them to the Ready Area to prepare for the Safety Briefing. Sort the targets by stage.
2. The Target Manager directs the Target Runners to post the targets for the Stage.
3. When the targets for a Stage are all posted, the Target Manager ensures that each Firing Lane target has the same name as the shooter firing on that Lane number.
4. When a Stage finishes firing, the Chief Range Officer will make sure the range is clear. When he is sure it is safe he gives a command to post new targets. At that point Target Runners remove the old targets and post the new target for the next stage. The Runners bring the previous Stage's targets to the Chief Scorer in the building and return to the range to help as required.
5. Upon completion of the posting for the next Stage, one of the Runners will take the targets for that Stage up to the Post building and give them to the Chief Scorer.
6. While scoring is being done, no competitor may enter the Scoring Area. Anyone who does may be disqualified with no refund of entry fee.
7. The Scoring Officers must make sure they initial each scorecard they score.
8. After scoring for a target is completed, lay that target face down on a table in lane number order.
9. Upon completion of the competition, competitors are permitted to review the targets and scorecard. Target sets will be laid out on tables by Relay. All competitors will sign their scorecard before leaving the Scoring Area. All challenges will be brought to the attention of the Range Master.
10. After review of the challenge targets and scores, the competitor must accept the decision of the Range Master. The competitor then must sign his scorecard. Any refusal to sign the scorecard disqualifies the competitor. The Range Master will so note on the scorecard.
11. When the last Relay is scored the scorecards for that relay are sent to the Statistics Officer. When the top three high scores are determined, the Range Master may release all competitors' targets. Targets not picked up will be destroyed or retained for training purposes.
12. After the competition is completed, all scorecards are the property of A. L. Post 48 Chesnee.
